

Sound it for our SETI Stars

The National Science and Technology Forum (NSTF) will celebrate its 12th annual NSTF Awards Ceremony on 4 May 2010 at Emperor's Palace.

Become part of our success! Become a partner or a sponsor!

- NSTF promotes science, engineering, technology and innovation (SETI) in South Africa.
- NSTF Award winners share their expertise and become role models and mentors for learners and students.
- This opens opportunities into SETI training, promote SETI knowledge and the commercialisation of innovations.

Business Development and Economic Growth in South Africa depend on:

The Brilliants Programme

The programme identifies, recognises and nurtures mathematics and science talent from schools in all provinces. They are exposed to the research environment through the Awards event.

The Prestigious NSTF Awards

Thirteen awards, in four different categories, are made to outstanding companies and individuals for their contribution to SETI as researchers, innovators, role models and science communicators.

The Share 'n Dare Programme

Award winners 'share' their knowledge and experiences with young people and 'dare' them to reach their full potential through:

- Special lectures and motivational talks at universities and colleges, and
- Radio broadcasts on Community and Campus radio stations.

Can you afford not to be part of this intervention?
